Dear Dr Luis Ernesto Garreta
Thank you for your submission of "MultiGWAS: An integrative tool for Genome Wide Association Studies (GWAS) in tetraploid organisms" to BioRxiv.

As publisher of several leading traditional journals (indexed in PubMed and with Impact Factor) and publisher of the new "overlay" journal JMIRx-Bio we are interested to learn more about why you submitted this paper to BioRxiv, and your plans for publication of this paper.

We would be grateful if you could spare 5 minutes to fill in our quick survey at:
https://docs.google.com/forms/d/e/1FAIpQLSdQwJNPfKLTsauFXXn3b4p_fPALCNHhiVfTuL8IrnUwV-DfKw/viewform?entry.1544014217=lgarreta@gmail.com&entry.1441824528=Luis+Ernesto+Garreta&entry.1788352090=https://biorxiv.org/cgi/content/short/2020.08.16.252791v1

Please fill in this survey even if you already submitted the paper to a peer-reviewed journal as we wish to learn more about the demographics of papers submitted to BioRxiv.

If you indicate in this survey that you are interested in a publication in a peer-reviewed journal, then we may also be able to help - our editorial prospectors will assess the paper and potentially contact you to offer peer-review and publication in one of our journals, possibly at no cost for you.

*** If this is a COVID19-related paper, you are invited to submit your paper to the rapid report theme issue at JMIR Public Health & Surveillance. See call for papers here: https://publichealth.jmir.org/announcement/view/200. You can use the M2JMIR menupoint on MedRxiv to transfer your paper directly from the preprint server (see https://support.jmir.org/hc/en-us/articles/360002385191 for details).

Thanks in advance!

G. Eysenbach
